PROFESSIONAL EXPERIENCE

Founder & Digital Solutions Consultant	Aug 2026 - Present
<i>The Legacy Wealth Group Houston, TX / New Orleans, LA</i>	
- Lead a professional-services and technology company providing tailored resumes, CVs, cover letters, and AI-assisted career-document solutions. - Deliver websites, applications, social-media and brand support, digital workflows, integrations, and broader online-infrastructure solutions.	
Executive Operations & Technology Intern	Sep 2026 - Present
<i>The Institute for Enhanced Equity New Orleans, LA</i>	
- Support executive operations by refining program documents, presentations, communications, and digital collateral while maintaining organized project records. - Help design a scalable, website-based CRM framework for participant intake, eligibility tracking, mentor matching, program engagement, reporting, and lifecycle management. - Research technology solutions and strengthen data-collection, workflow, website, social-media, and program-evaluation practices serving entrepreneurs and small businesses.	

PROFESSIONAL EXPERIENCE - CONTINUED

Technology Intern

Sep 2026 - Present

World Affairs Council of New Orleans | New Orleans, LA

- Lead implementation of Civilized, an integration platform that unifies approved website, social, newsletter, document, and other digital content into a cohesive information-discovery experience.
- Modernize website content and digital publishing workflows to strengthen accessibility, consistency, and the Council's online presence.
- Support social-media operations by monitoring traffic and engagement, evaluating audience behavior, and translating performance insights into content recommendations.

Data Analytics & Systems Contractor / Night Auditor

May 2025 - Feb 2026

Hotel Management of New Orleans | New Orleans, LA

- Analyzed occupancy and labor data using Excel and SQL to improve operational visibility and support management decisions.
- Built reporting pipelines and dashboards to track performance trends and recurring operational exceptions.
- Used Oracle Opera PMS and implemented SharePoint-based document management workflows for real-time operations.

Client Services & Data Coordinator

Apr 2024 - Aug 2024

SBP | New Orleans, LA

- Managed and cleaned CRM data to improve workflow accuracy and client-service efficiency.
- Automated recurring reports with Excel and cloud tools and developed AI-assisted client-data summaries.
- Guided clients through the organization's transition and rebuilding process while maintaining organized case information.

Editor-In-Chief

Aug 2023 - Dec 2023

The SUNO Observer, Southern University at New Orleans | New Orleans, LA

- Led the publication's transition from print to a digital platform and established engagement-tracking practices.
- Built tracking databases and implemented practical cybersecurity safeguards for editorial workflows.

Executive Assistant

Jul 2022 - Dec 2022

Honore Consultants | New Orleans, LA

- Built and supported IT infrastructure using Windows Server and Active Directory.
- Managed permissions, system configurations, workflows, and operational documentation.
- Facilitated team meetings, drafted company policy, and helped restructure the firm's brand and digital presence.

Data Analyst Intern

Jan 2022 - Jun 2022

City of New Orleans, Bureau of Treasury | New Orleans, LA

- Digitized taxpayer records and supported database development to improve data accessibility.
- Strengthened reporting processes and helped modernize the office's digital information infrastructure.

Management Development Asst

Sept 2021 - Nov 2021

City of New Orleans, Mayor's Office | New Orleans, LA | Housing, Data & Constituent Services Support

- Handled constituent calls in the Mayor's Executive Office and documented resident concerns across New Orleans.
- Supported rental-assistance workflows for the Office of Community Investments and Assets.
- Coordinated information involving lenders, developers, city planners, and commissioners for affordable-housing initiatives.
- Organized office data, tracked resident issues, and supported communication workflows tied to housing and public services.

SELECTED PROJECTS

- Built backend applications, including a chess engine and data tools.
- Developed the 3D business-simulation game The Life of the Boss II.
- Designed IT systems and server environments for business operations.
